COMMODITY GROUPS

Sourcing to delivery

EXECUTION

How we work

Regional Market Knowledge

Commercial focus on Central Asia, Russia, and neighboring trade corridors.

Cross-Border Execution

Import and export transactions coordinated around product, route, and delivery terms.

Multi-Commodity Sourcing

Industrial, agricultural, and textile products handled through one trading relationship.

Key trade flows

Bitumen -> Uzbekistan

Exporting bitumen to buyers in Uzbekistan based on agreed specifications and commercial terms.

Barley <- Russia

Sourcing and importing barley from Russia as part of our agricultural commodity portfolio.

Steel -> Central Asia

Exporting iron and steel products to customers across Central Asian markets.

Silk Yarn <- Import

Importing silk yarn as part of our textile raw materials business.

Energy & Bitumen

01 · EB

Bitumen export supply with a current focus on Uzbekistan and qualified regional buyers.

EXPORT

Bitumen exports

Supply for Uzbekistan and other regional opportunities based on agreed specification and availability.

SPECS

Specification matching

Grade, packaging, and commercial requirements are confirmed against each inquiry.

LOGISTICS

Logistics planning

Route and shipment mode are selected according to destination, volume, and delivery terms.

TRADE

Commercial quotation

Quotes are structured around quantity, destination, required specification, and Incoterm.

Metals & Steel

02 · MS

Iron and steel products for buyers across Central Asian markets.

PRODUCTS

Product scope

Iron and steel products sourced and supplied according to the buyer's requested category.

SPECS

Specification matching

Dimensions, grade, standard, and quantity are aligned before commercial confirmation.

SOURCING

Supplier coordination

Available supplier options are evaluated against specification, timing, and commercial terms.

EXPORT

Regional delivery

Export planning is organized for Central Asian destinations on a transaction-by-transaction basis.

Agricultural Commodities

03 · AG

Barley from Russia alongside pulses, grains, and selected agricultural commodities.

BARLEY

Barley from Russia

Russian-origin barley sourced for import based on required specification and volume.

AGRICULTURE

Pulses & grains

Pulses and grain opportunities remain part of the wider agricultural trading portfolio.

SPECS

Quality requirements

Commercial specifications and inspection requirements are agreed before purchase confirmation.

SUPPLY

Supply planning

Spot and repeat requirements are evaluated according to origin availability and destination.

Textile Raw Materials

04 · TX

Silk yarn imports and specification-led sourcing for textile raw materials.

SILK YARN

Silk yarn imports

Silk yarn is sourced for import according to the buyer's required specification and quantity.

SPECS

Specification matching

Count, quality, packaging, and other technical requirements are confirmed per inquiry.

SOURCING

Supplier coordination

Supplier offers are compared against quality, commercial terms, and delivery requirements.

IMPORT

Import execution

Commercial and logistics steps are coordinated from supplier confirmation through delivery.

Regional markets and trade corridors

Our business is built around specific origin and destination relationships rather than a generic global catalog.

UZ

Uzbekistan

A current destination market for the company's bitumen exports.

RU

Russia

A key sourcing market for barley imports and agricultural commodity opportunities.

CA

Central Asia

A destination region for iron and steel exports and additional B2B trade opportunities.

REG

Other Regional Markets

Additional opportunities evaluated according to product, route, specification, and commercial fit.

How a trade starts

1. Requirement

Share the commodity, specification, quantity, origin or destination, and target timing.

2. Sourcing & quote

We evaluate suitable supply and prepare the commercial offer.

3. Terms

Specification, price, payment, delivery terms, and documentation are aligned.

4. Execution

Supply, transport, and cross-border documentation are coordinated for the agreed route.

5. Delivery follow-up

Transaction milestones are followed through to delivery and commercial closeout.

TRADE INQUIRY

Tell us what you need to buy or sell

Share the commodity, specification, quantity, origin or destination, and preferred delivery terms so our trade team can evaluate the opportunity.
